Dear Sir:

In response to the Office Action dated July 1, 2003, please amend the above-entitled application as follows.

IN THE CLAIMS

Please cancel claims 1-21.

Please add claims 29-36 as follows.

29. (New) A flying height tester for a recording head of a hard disk drive, comprising:

a transparent substrate that has a first surface and an opposite second surface;

a coating on said first surface of said transparent substrate, said coating being adjacent to the recording head, wherein a thickness of said coating is substantially inversely proportional to a refractive index of said coating;
